EXPERIENCE

LIDD Supply Chain Consultants, Canada (Remote) — Senior Fullstack Engineer

Sept 2024 - Present

- **Architectural Leadership:** Spearheaded the end-to-end fullstack architecture using Next.js, establishing a unified data fetching strategy via GraphQL and REST APIs to streamline backend communication.
- **Infrastructure Management:** Architected and managed remote cloud environments within Azure, ensuring high availability and scalability for enterprise supply chain solutions.
- **Legacy Modernization:** Oversaw the maintenance and optimization of multi-stack projects (Gatsby, Node.js, MongoDB) deployed across Netlify and Heroku, improving system reliability.

Lolly Co, UK (Remote) — Senior Frontend Engineer

Aug 2022 - Sept 2024

- **System Portability:** Engineered a "plug-and-play" environment architecture using **Docker Compose**, achieving seamless project portability across diverse client infrastructures.
- **Scalable Tooling:** Developed a high-impact POC Chrome extension for Gmail using a **Lerna monorepo** and **Typescript**, demonstrating the ability to design modular, extensible software.
- **Cross-Stack Integration:** Integrated complex frontend state management (**Redux, Formik**) with PHP backends to deliver robust collaboration and data visualization tools.

Entando, Italy (Remote) — Frontend Engineer

November 2018 - Aug 2022

- **Microfrontend Architecture:** Designed and maintained out-of-the-box **microfrontend widgets** using **Web Components**, enabling a highly modular and reusable UI ecosystem for the Entando App Engine.
- **Developer Experience (DX):** Co-authored a specialized CLI tool for scaffolding microservices and microfrontends.
- **Quality Assurance:** Established rigorous testing standards using **Jest, Cypress, and React Testing Library**, ensuring the stability of the core AppBuilder platform.
